

Another Quality Look From Boral

DOUBLE HUNG WINDOW

Boral Exclusive Style and Strength

Superb ventilation is just one of the many features of Boral double hung windows. They are designed to work effortlessly and glide down from the top to let stale air escape and up from the bottom to let fresh air in.

A tough durable powder coat finish protects the aluminium from adverse effects of the weather and when cleaned regularly keeps them looking beautiful year after year.

The innovative design complies with the stringent quality standards of AS 2047-1977 and AS 1288-1989.
